THE FASCINATING WORLD OF ASTROLOGY

BIRTH HOROSCOPE - RADIX

Each horoscope is a map and a screenplay of life, which can reveal much for your benefit and understanding.

The horoscope gives an insight into the blueprint and the dispositions of this life, the karmic background, the challenges and opportunities for growth. Likewise, family constellations show how we can better understand, accept and change our life situations.

Resonances and trauma are highlighted, helping to recognize their "destiny" and what we have to learn especially in spiritual crises.

Session (120 min) incl. preparations: € 290

YEAR HOROSCOPE - SOLAR

In addition to every birthday, the Solar provides information and hints for the coming year. It helps to meet its challenges and to work towards an expansion of consciousness.

Session (90 min) incl. preparation and the name of the Stone of the Year: € 230

In both cases: includes the printed horoscope and the recording of the conversation.

THE STONE-AGE: FUTURE OF AN OLD SCHOOL

On the energetic level, each healing stone has its own vibration pattern, which is characterized by its historical development, crystal structure and its ability to store and release light, and by the minerals, chemical elements and metals contained in it.

This pattern of vibrations, together with the resonance to the five Elements, brings you a message which is comparable to archetypical symbols.

All this moves something in the body, mind and spirit, which can contribute to a healing effect. The evoked resonance reminds the body/mind/soul of its own healing powers.

SKY CRYSTAL CONSTELLATIONS

Similar to a "Hellinger Family Constellation" work, but using Stones instead of participants, to re-create the network of your family interactions and archetypes.

Through this work, you get released from family trauma and transmissions that block you, and you can get free and unleash your full potential.

Consultation / Coaching / Supervision (90 min) € 230

THE 12 ZODIAC STONES

"We all come from Mother Earth, the treasures and helpers: we the crystals and stones.

We are born from the Fire and the Breath of God, the Mother Earth gives us the security of growth and the Water invites us to surrender and let go.

So all the Elements are contained within us from the beginning, what makes us alive is the Spirit, the Ether element."

Each Zodiac has been assigned with a special Stone/Crystal which will influence and promote the qualities of the wearer.

Their channelled messages have written down for you...

Price between € 25 - € 35, including the Zodiac Stone (tumbled) with its channelled message.

For a more in-depth and personalized guidance:

SOUL STONE

Each person is associated with their personal Stone/Crystal. Astrology gives me an insight into the soul.

Your Soul Stone has the gift to promote your own potential, and to provide the necessary protection in everyday's life.

Base price € 90, including the Soul Stone (not tumbled!) and its interpretation. Note: price varies depending on the Stone.

Both Stones are available as gifts (birth, baptism, etc.)
